NATIONAL HOTEL, WASHINGTON, CITY, D. C.—The proprietor of this fine hotel, formerly known as "Gadeby's" but now generally called "Coleman's Hotel; desires to return his thanks to his friends, and the travelling portion of the community generally, for the favors which they have bestowed upon him since he opened his establishment, and to assure them that he will spare no exertions to render his house worthy of the patronage of which he has already received so liberal a share.

The house having been during the summer thoroughly painted and refitted, is now in first-rate order for the reception of travellers or residents; and the proprietor respectfully solicits a continuance of past favors on the part of visiters to Washington, or residents during the session of Congress, being confident that they will always find comfortable lodgings, the best on the table that the market affords, and attentive and polite waiters.

Many forfeitures are about to accrue, from failure to pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I require, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take a contingent interest in the lands for attention and services.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warms the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

FRENCH WRITING-INK, from the manufactory of Guyot et Compagnie, Paris—just imported direct from Paris by F. TAYLOR, and this day received. This ink has enjoyed the best reputation in France for a long series of years, and is recommended by the advertiser, after many trials of American inka, and many importations from England and France, as the best, in every respect, that he has been able to find anywhere. It will be sold at a price but little exceeding that of the very inferior inks which are to be found everywhere, and much cheaper than them, if the real economy and advantage attending the use of the best article of this kind be not left out of view. Those who are not satisfied with the inks which they have been using hitherto, are invited to make trial of this.

west corner of Balumore and Eutaw streets, containing upwards of 23,000 square feet of ground, and fronting 112 feet on Balumore street and 186 feet on Eutaw street, to an alley; 66 feet of which on the last named street form a yard planted with ornamental shrubbery of various kinds.

The house is five stories in height, covered with slate, occupying the whole front of the lot on Baltismore street, running back 186 feet on the west to the alley, and 120 feet on Eutaw street, heving an area in the centre of the building for light and air; with two main entrances, one from each street; that from Baltimore street leading to the private parlors and family rooms, the other on Eutaw street to the public part of the house.

The basement or lowest story is divided into five stores on Baltimore street, two on Eutaw street, and a dressing-room, a kitchen, pantry, larder, mangling, ironing, drying, wash and bath rooms.

The second story has 5 parlors on Baltimore street, and 4 on Eutaw street; a smoking-room, office, ladies' dining-room 35 by 25 feet, and a gentlemen's dining-room 96 by 30 feet, with a servant's hall, chambers, billiard-room, china closet, &c. There are upwards of 200 rooms, in the house, of which 22 are parlors.

This building was erected in 1835, expressly for an hotel, and is believed to possess every convenience usually to be found in those of the first class; is most elicible situated in an arreable part of the city.

season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

"Onggon and China wheat.—There have been left at our office two new species of wheat—one called 'Oregon,' the other 'China.' It was taken from the Bloomfield estate, belonging to Herry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who breught it to this country in 1839. Mr. Smeltzer this year raised from four and a quarter acres, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chaff, heads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China; and the heads being so very large and compact, the discoverer was induced to plant them. Mr. S. informs us that last year he raised 42 j bushels per acre with it, and this year 47 bushels per acre. This

wood, and anthracite coal of the best quality and different varieties; and will shortly receive a supply of
superior Cumberland and Richmond grate coal, so
as to enable them to supply the demands of all per
sons who may be disposed to patronize them. In
order to guard against mistakes, the coal will be regularly and correctly weighed by a person sworn
for that purpose, and a ticket will accompany each
load—the ton to contain 2,240 lbs. The same particularity will be observed in the delivery of the
wood.
Terms, cash; but to punctual customers bills will

W. H. HANDI, M. D., professor of anatomy and physiology.

By faculty, (till chair is filled,) dental physiology and pathology.

CHAPIN A. HARRIS, M. D., demonstrator of mechanical dentistry.

The faculty are gratified in being able to inform the community, that, in addition to the laboratory already attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the consuming session, and beconducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

already attached to the college, arrangements have been made for opening a destal informery, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmery, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

It will also add greatly to the practical facilities which the college already furnishes the student, by giving him not only a better opportunity of daily wincessing the various operations, but also of taking part himself, and thus acquiring that practical tact so essential to the skillful dentist.

Ticket of each professor, \$25; matriculation, \$5. Demonstrator's ticket, \$10; dissecting ticket, \$10. Diploma, \$30.
